

PRODUCT BROCHURE

What is OUR STORY?

Dayjoy Marketing is a wellness brand dedicated to enhancing lives through high-quality lifestyle products made from natural ingredients. Our range spans **Wellness, Beauty, Agriculture, Cloth, Spices & Home Care**, with a focus on simplicity, purity, and effectiveness. Our in-house R&D team ensures every product delivers value and wholesomeness. Successful sub-brands like Asthprash, Curind, YumDum, Wild Muse, Amara, Domatti, Aayushmaan, Home Shine and HappyGrow reflect our commitment to excellence. As part of the Adila Group, led by Mr. Anmol Agarwal and Mr. Divyansh Agarwal, Dayjoy stands for creating impactful solutions for everyday living. We also promote entrepreneurship through our smart direct selling model—empowering individuals to grow financially and personally while contributing to a healthier, happier society.

Who is behind THE WHEEL?

MR. ANMOL AGARWAL

Founder & Managing Director
Dayjoy Marketing Pvt. Ltd.

Dear Patron,

A second-generation entrepreneur with a strong instinct for business and innovation, Anmol Agarwal brings energy, clarity, and execution strength to every venture he is a part of. He is passionate about creating scalable solutions that serve real needs, especially in sectors that touch the lives of the masses.

Anmol holds a degree in Entrepreneurship from Coventry University, London. After completing his studies, he made the conscious decision to return to India in 2018 and contribute to his family's diversified business group, Adila Group. The group operates across two major sectors—Biotechnology and Agro Foods—and has steadily built a name for quality and impact.

In 2019, Anmol played a key role in launching Dayjoy Marketing Private Limited, a fast-growing direct selling company focused on health, wellness, and personal care. His contribution to the brand's positioning and expansion

helped Dayjoy emerge as a trusted name in India's wellness economy. Dayjoy now empowers thousands of distributors and customers through its product ecosystem and community-centric approach.

Currently, Anmol is leading operations and strategic growth at Flywood Impressions Private Limited, a premium plywood and wood panel manufacturing unit. With a focus on quality manufacturing, optimized operations, and strong B2B sales networks, Flywood is steadily gaining ground in the Indian interiors and infrastructure market.

Anmol's core strengths lie in turn-around marketing, people management, and system-driven scale-up. He enjoys working with teams, turning challenges into structured solutions, and investing his time in ventures that aim to do good while doing well.

Whether it's scaling a brand, building systems, or creating new business opportunities, Anmol Agarwal remains committed to the core values of trust, efficiency, and long-term growth.

Who is behind THE WHEEL?

MR. DIVYANSH AGARWAL

Founder & Managing Director
Dayjoy Marketing Pvt. Ltd.

Dear Patron,

Every meaningful journey begins with a courageous first step. For Mr. Divyansh Agarwal, that step was guided by a vision to bring wellness and empowerment together through a company that puts people first. This vision gave birth to Dayjoy Marketing Pvt. Ltd.

Raised in Kota, Divyansh was always driven by curiosity and discipline. After earning First Class Honours in Information Management for Business from University College London, he began building ventures with purpose and potential. From early startups like Roomkart.in and Crafito, his entrepreneurial journey eventually took shape in Dayjoy—a brand rooted in the power of nature, community, and honest growth.

Dayjoy isn't just about products. It is about building something meaningful for people. Under Divyansh's leadership, the company has expanded across India and Nepal, reaching over 1,800 outlets and earning recognition through awards like Startup of the Year and the Entrepreneurship Excellence Award.

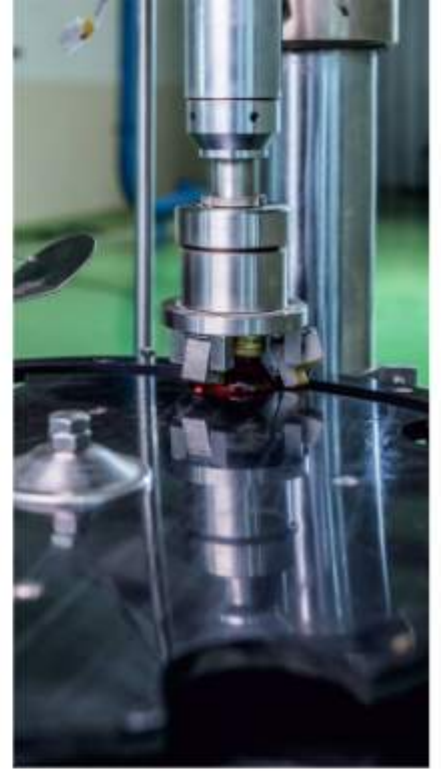

But the heart of Dayjoy lies in its people. Through our Dayjoy DRIVE system, we support every distributor's growth. Our community initiatives—Aarogyam Club, Diva Club, and Youthpreneurs—foster leadership, learning, and social change.

We believe in doing business with transparency, consistency, and care. Every customer, distributor, and partner deserves to feel valued and empowered. That's what we strive for in every product and every interaction.

With Divyansh at the wheel, we look forward to reaching new milestones, exploring new markets, and shaping a brighter, healthier future for everyone who walks with us.

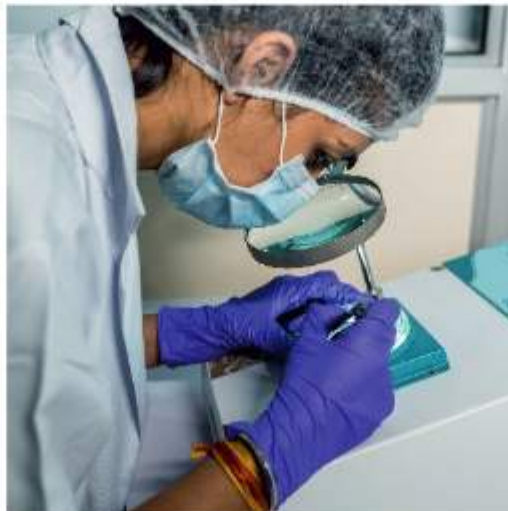

Thank you for being a part of this journey.

What makes US STRONG?

Dayjoy runs one of North India's largest state-of-the-art manufacturing setups, producing FMCG, Ayurvedic products, food supplements, and cosmetics. Every product is crafted in a hygienic environment using premium raw materials and meets top certifications like ISO, GMP, WHO-GMP, FSSAI, FDA, HALAL, and HACCP. Our **400-acre facility** includes specialized production units with daily capacities of over 100,000 tablets, 20,000 liters of syrup, and 100,000 capsules. We also operate one of South Asia's largest dehydration units (50,000 kg/day) and an extraction plant in Rajasthan with 6,000 tons annual capacity. A key strength is our dedicated R&D wing. A portion of our turnover is invested in developing new formulations and improving existing ones. Collaborating with expert researchers, we ensure quality, efficiency, and innovation through optimized processes and clinical studies. This powerful blend of manufacturing scale and research-driven innovation drives Dayjoy's consistent excellence and customer trust.

Achievements

Dayjoy R&D LEADERSHIP

Dayjoy's product innovation is guided by two remarkable experts whose combined strength brings together the depth of classical Ayurveda and the precision of modern scientific research.

DR. RAM PAL SOMANI

A Pioneer in Ayurvedic Standards & Regulatory Excellence

With more than 35 years of distinguished experience in ASU drug regulation and classical Ayurveda, Dr. Ram Pal Somani stands as one of the most respected authorities in the field. As the former Assistant Drugs Controller of Rajasthan and a key member of multiple Ministry of AYUSH committees, he has played a major role in shaping national pharmacopoeial standards. His expertise in Rasa Shastra, traditional formulations, WHO-GMP compliance, labeling norms, and regulatory oversight ensures Dayjoy's products maintain authenticity, purity, and high-quality standards rooted in classical science.

MR. YOGENDRA KUMAR CHOUDHARY

A Global Innovator in Pharmacology & Evidence-Based Natural Medicine

With 17+ years of global experience across pharma, biotech, and natural product research, Mr. Yogendra Choudhary drives Dayjoy's modern scientific vision. An IIM Calcutta alumnus and founder of Prothix Lifesciences, he has launched 57 evidence-based natural medicines worldwide and led 350+ R&D projects. His leadership in clinical trials, toxicology, pharmacovigilance, ESG initiatives, and advisory roles with UN-IUCN, WHO, and government bodies ensures Dayjoy's formulations meet global safety, efficacy, and sustainability standards.

BODY COMPOSITION

We need seven key nutrients every day for the healthy functioning of our body, namely water, carbohydrates, fats, proteins, vitamins, minerals, and fiber. We often consume adequate quantities of water, carbohydrates, and fats but may remain deficient in our intake of protein, vitamins, minerals, and fiber. Leading health authorities like the WHO, ICMR, and NIN recommend a daily intake of each of these types of nutrients as per their RDA recommendations to sustain good health.

SUPPLY IS LOW AGAINST DEMAND - LACK OF NUTRIENTS

Your body doesn't get the right nutrients from today's diet due to:

Soil Depletion:

- Modern farming has stripped soil of essential minerals.
- A 2022 FAO report confirms declining micronutrient density in globally grown foods.

Post-Harvest Nutrient Loss:

- Fruits & vegetables can lose 30–70% of vitamin C and B vitamins within 3 days of harvest (Source: Harvard T.H. Chan School of Public Health, 2023).

Ultra-Processed Diets:

- Over 60% of calories in urban diets come from ultra-processed foods, lacking micronutrients (BMJ, 2024).

Environmental Stress on Crops:

- Rising CO₂ reduces zinc, iron, and protein levels in rice and wheat (Nature, 2022).

Long Transport Chains:

- Produce often travels 1,500–2,500 km, losing freshness and nutrients before reaching your plate.

Cooking & Storage Impact:

- High-heat cooking destroys up to 50% of antioxidants in vegetables.
- Refrigeration delays but does not prevent nutrient loss.

ACCUMULATION OF TOXINS IN BODY

PESTICIDE

CHEMICALS IN FOOD WHAT WE EAT

The World Health Organization estimates that there are 3 million cases of pesticide poisoning each year and up to 220,000 deaths, primarily in developing countries.
